Outdoors RV Manufacturing
THE BATHROOM
the WindRiver does not take shortcuts even in here...notice the built-in wooden medicine cabinet, bathroom window, porcelain toilet, brushed nickel motor home style glass shower enclosure, and comfort air upgraded ceiling fan...full function bathroom is an understatement!

THE DINETTE – the WindRiver 2702BS is built with a full-sized U-Shaped Dinette that is perfect for meal or game time for the entire family...
THE BEDROOM — Individual bullet reading lights, pillow top mattress, pillow shams, and the motor home style headboard keep up the luxury theme after an incredible day in the Outdoors! You will be thanking the pillow top mattress for days…so many RV manufacturers take this feature for granted…not Outdoors RV Mfg – we are active users of the products we produce and this was just one more feature we all felt was extremely important to put in all of our units!

THE KITCHEN — Stainless steel appliances, pot & pan drawer, 8 cu ft fridge (optional), pull out pantry, flip up counter, metal full extension drawer guides, and the list goes on…also notice the kitchen window design…no more bending down to look out the window…the reason we all go camping is to enjoy the Outdoors and now while preparing meals for the family the Outdoors is right in front of you!

Welcome to the Outdoors!

The Industry Standard:
- Cold and Drafty, Not Designed for Northern Climates

The Outdoors RV Standard:
- Warm in the Winter and Cool in the Summer, Perfect for colder Northern US and Canadian climates.

In a 4 Seasons Outdoors RV, the entire chassis is enclosed from front to back for both insulation and protection from road debris.

We use Astro-foil (R-15) insulation along the entire length of the floor. Plus an additional wrap around the holding tanks.

The Industry Standard:
- Holding tank dump valves are not enclosed and are exposed to freezing.

The Outdoors RV Standard:
- Our Dump Valves are located within the Enclosed / Heated underbelly to protect them from freezing.

The Industry Standard:
- A single layer of insulation.

The Outdoors RV Standard:
- Insulation is double layered for added protection.

The Industry Standard:
- No insulation in the slide out floors.

The Outdoors RV Standard:
- The entire slide out floor is covered with Astro Foil / R-15 Insulation.
